

Vision SMART Control Centre (SCC)

To be world class control centre in managing stormwater.

Mision SMART Control Centre (SCC)

To detect and divert flood flows away from the city centre via the SMART tunnel.

Objective SMART Control Centre (SCC)

The primary objective of SMART is to alleviate flooding problem at Kuala Lumpur City Center due to stormwater from the Klang - Ampang catchment.

Added benefit of SMART is to ease traffic congestion at the southern main gateway (TUDM at Sg. Besi) to the city centre.

Core Values

Doing The Right Things, and Doing Things Right with **QUALITY, INTEGRITY** and **CARING**
